

MR. PITTMAN EXPLAINS DECISION

(By Frank K. Pittman, One of the Attorneys for the Morning Glory Mining Company.)

I was rather surprised when I read the interview of H. R. Cooke in the press of Wednesday regarding the decision in the White Caps case, but the apparent attempt to make it appear that Judge Averill only granted the relief to the Morning Glory which the White Caps company was willing should be granted. While this may be true, I am more inclined to believe that Judge Averill was more influenced by the law applicable to such cases than to the suggestions made by the attorneys for the plaintiff.

Mr. Cooke says: "The court denied in toto the Morning Glory application for a dissolution of the injunction against it and ordered the original order against it to stand." But he failed to add that Mr. Gibbs, in the closing argument for the Morning Glory, stated to the court that it was the duty of the court to hold the disputed orebodies intact and that the Morning Glory did not expect a dissolution of the injunction against it.

Mr. Cooke says the injunction issued against the White Caps company was consented to by it. This is true, but would anybody believe that the White Caps company would agree to an injunction against it because of its love or sympathy for the Morning Glory? I think not. It is evident that the attorneys for the White Caps company, anticipating that the court would enjoin their client from extracting or working the ore in dispute, agreed to the injunction so as to forestall the order of the court.

Mr. Cooke says: "The Morning

MEASURES TAKEN TO SAVE ST. MARKS

(By Associated Press.)

VENICE, Oct. 25.—Measures for the protection of Saint Mark's, the most famous monument of Venice, from the enemy's bombs have now been completed. The face and sides of the cathedral are enclosed by an armor of bags of sand held in place by scaffolding which is lined with asbestos as a protection against incendiary bombs such as the one that fell a year ago within a few yards of the main entrance.

The mosaics, both inside and out, are protected from rushes of air that might result from explosions by canvas stretched beneath them which would serve also to catch all the fragments that might fall and preserve them for restoration.

DEVOTION HELD IN ST. PATRICK'S ENDED

THREE PRIESTS CONDUCT SOLEMN SERVICES IN CATHOLIC CHURCH.

On Sunday morning the beautiful and impressive devotion of the forty hours opened in St. Patrick's parish with solemn high mass, the Rev. M. J. O'Reardon being celebrant, Fr. Cronin deacon and Fr. Noonan sub-deacon. Fr. Cronin preached on the Eucharist and impressed the large congregation by his eloquent and logical treatment of the Catholic church's central doctrine. In the evening Fr. O'Reardon of Ely preached on the institution of the Blessed Sacrament. To a devout people which literally overcrowded the church Fr. O'Reardon eloquently treated his subject, proving from the synoptic gospels of St. John the real presence of Christ in the sacrament of the altar. Throughout the hours of Sunday and Monday the faithful of St. Patrick's thronged the church in silent adoration of their Lord and Master, enthroned over the altar. On Monday evening the zealous pastor, Father Noonan, preached to his people on Christ's Ever-Abiding Presence Amongst Us in the Sacrament of His Love. The forty hours were brought to a close Tuesday morning, the pastor celebrating mass, giving solemn benediction and thanking his people for the splendid attendance and devotion shown during the forty hours. It may be added that the good priest was more than pleased at the number that approached the holy table and took occasion to make special mention of the fact in his remarks at the close of the devotion.

DESERT CATHEDRAL TO BE DEDICATED

(By Associated Press.)

SANTA FE, N. M., Oct. 25.—The Cathedral of the Desert, a structure of unique design, will be dedicated here November 25. The cathedral, which will serve as a home for the state museum and general culture center for the state, particularly in connection with historical and archaeological development, is modeled after two ancient Spanish missions, those of Cochiti and Pecos.

It has a number of rooms for office work, several large halls and an auditorium, as well as many exhibit rooms. It also has "patios."

TO DEAL WITH DIFFERENCES.

(By Associated Press.)

LONDON, Oct. 25.—The shipping controller has set up a mercantile marine conciliation committee for dealing expeditiously with differences between shipowners and seamen. Various sections of sea labor and shipowners have been in conference on the possibility of arranging a standard of national rate of wages and as the ministry of shipping is satisfied as to the expediency of this reform, they are prepared to create and make effective the necessary machinery.

PUT ON WAR RATIONS.

(By Associated Press.)

NEW YORK, Oct. 25.—War rationing has begun with the restriction of sales of sugar to from two to five pounds to each customer, according to the size of his family.

or courts, many walks, balconies and towers.

The dedication will take place in the cathedral auditorium, with Frank Springer, a New Mexico archaeologist who took part in securing the erection of the building, delivering the address.

A series of panels depicting scenes from the life of St. Francis of Assisi, Mr. Springer's gifts to the cathedral, are hung in the auditorium. They are from the brushes of the late Donald Beauregard, M. Chapman and Carlos Viera, and all were painted in the old "Palace of the Governors," just across the street from the cathedral.

STUDY OF SPANISH TO BE UNDERTAKEN

The new text books in Spanish for the eighth grade have arrived and the pupils of the class are correspondingly happy. Until now the subject has been taught by conversation and the use of notebooks and the pupils have made surprising progress. With the book now to be in their hands the progress will be even faster. The pupils of this class almost without exception have taken a deep interest in the subject. This subject and European history are being given this year in the eighth grade largely as an experiment, but if the work continues as successful as it has been up to the present it will be continued hereafter. Miss Jewett is the teacher of Spanish.

PRIME MINISTER GIVEN AN ABODE

(By Associated Press.)

LONDON, Oct. 25.—Colonel Sir Arthur Hamilton Lee, who married Miss Ruth Moore, daughter of J. G. Moore of New York, in giving his country seat, "The Chequers," to the nation as a residence for British prime ministers, makes it a condition that he and Lady Lee may, if they desire, remain in occupation as tenants of the trustees as long as they shall live.

"The Chequers" estate covers 1,500 acres, is the reputed birthplace of Caractacus, in the year 1, and has records dating back to the reign of Henry the Second, when it was the residence of Elias de Scarrario, chancellor of the exchequer. The house is Tudor in origin and design, was largely built in 1,565 and restored in 1,909. Sir Arthur in his bequest asks that no alteration or addition be made to the principal features of the house, as he wishes to protect it against such outrages as were inflicted on it by the "late Georgian Goths and Vandals."

In a memorandum outlining the conditions of the trust which is being created under the prime minister, Sir Arthur says that the scheme is not a mere whim, but a carefully considered policy based on a long experience of political life and official conditions, and of the beneficial effect that the climate and atmosphere at "The Chequers" invariably exercise on hardworking men of affairs. He has foreseen that it is impossible to foretell from what classes or conditions of life the future wielders of power in this country will

be drawn. They may be men of wealth and famous descent, they may belong to the world of trade, or they may spring from the ranks of manual toilers. He believes that to the city-bred man, periodic contact with rural life would help him to preserve a just sense of proportion between the claims of town and country, while to the revolutionary, the antiquity and calm tenacity of the place would exercise a check upon too hasty upheavals. Sir Arthur also lays down the maxim, "The better the health of our rulers the more sanely they rule."

In order to preserve the trust in perpetuity, steps have been taken to constitute a board of ex-officio trustees, with the prime minister at the head. "The Chequers" is situated on Coombe Hill, the highest point of the Chilterns, is thirty-eight miles by road from Hyde Park corner and is about one hour's rail journey from London.

RECRUITING OFFICER ALLEGED PYROMANIAC

(By Associated Press.)

FARGO, N. D., Oct. 25.—W. E. Alden of Minneapolis, a naval recruiting officer of the Fargo sub-station of the Minneapolis district, has been arrested here charged with setting fire to the federal building in this city a short time ago, causing \$10,000 damage. He will be given a preliminary hearing before United States Commissioner Cuper.

Electricity—the Friend of Man, and Also the Foe of Man

WHEN harnessed up by science it is one of Nature's most valuable gifts. When it is not under control, it often spells ruin. There are few things wholly evil or wholly good. We all know dyspepsia arises from immoderate eating; but it is also unhealthful to eat too little. Over-indulgence in anything is bad. Because of this we were given the heaven-born power of reasoning, in the not-too-much of anything.

Our sovereign brew BUDWEISER has for sixty years been a beverage of sane moderation. It has untold numbers of friends in every civilized land because of its Purity, Quality, Mildness and exclusive Saazer Hop Flavor. BUDWEISER sales exceed other beers by millions of bottles.

Visitors to St. Louis are courteously invited to inspect our plant, covers 442 acres
